

THEATRE ARTS EDUCATION

MAJOR APPLICATION

INTRODUCTION

Due to the number of applicants and demands on department resources, a limited number of students are accepted into the theatre education program each year. The purpose of the application process is three-fold: 1) to introduce the student to the quality of work expected in the program, 2) to judge if the student is able to fulfill these expectations, and 3) to determine if the student's interests and potential match the objectives of the theatre education program. The requirement of quality work and the matching of program expectations and objectives with the student's interests is critical for creating a well-grounded educational experience.

The application deadline is **November 25, 2019**. The application will be submitted online. Instructions will be given in detail on how to develop and submit the application in the TMA 276 course.

Questions regarding the application process may be directed to Kris Peterson at kris.w.peterson@byu.edu. It is important for the applicant to provide an e-mail address. The department will communicate information and announcements regarding the application via e-mail.
